

# EYFS TALK newsletter

## Foundation 2

### WC 30.1.23

Throughout this term we will be learning about 'Traditional Tales'. Over the next fortnight we will be enjoying Once Upon a Time a story where the children can choose their own plot. We will be making box model castles, creating our own stories and making wishes with our magic wands.

### Maths

In maths we are exploring odd and even and finding number bonds to 10. Find 10 objects. Ask your child to split the 10 into 2 groups.

Ask them to count the amount in each group. Can they tell you the parts that make up 10. Can they split the group another way?

### Words to investigate

Wish, fairy tale,  
first, next, then

Talk about what these words mean together. Practise saying the words. Model using the words in a sentence and ask your children to have a go.

### Phonics

Write the tricky words he, she, we, me, be on a piece of paper. Say a tricky word, can your child point to the word you say. Challenge them to touch it as quick as they can.
